▶PRODUCTIVITY AND ERGONOMICS WITHIN YOUR REACH

Eliminate the manual phases of picking and positioning the screw with Fiam's CA **handheld tightening systems with automatic screw feeding**.

With the CA you can:

- assure operational continuity and avoid jams
- increase the productivity of your tightening processes: tightening times are reduced by up to 35%
- reduce fatigue to the hand-arm system ensuring ergonomics for your operators
- provide interconnectivity with the factory system, being an Industry 4.0 Solution

▶TIGHTEN ON VERTICAL SURFACES WITH MAXIMUM COMFORT

If you need to tighten on vertical surfaces with maximum comfort, you can choose the **eTensil pistol grip electric screwdrivers** that provide great operational flexibility in full ergonomics.

The eTensil pistol grip models provide the operational flexibility that distinguishes Fiam's electric range, allowing you to tighten on vertical surfaces with maximum operator comfort.

Equipped with torque or torque/angle control systems, the Pistol and UpGrip Pistol models are available with **bottom feed, top feed** and **reverse handle "UpGrip"**: more choices to adapt the tool to different operating layouts and always achieve maximum functionality and ergonomics for operators.
